AIR QUALITY SYSTEMS

BECAUSE WHAT MATTERS IS HEALTH

AIR PURIFICATION AND DEHUMIDIFICATION

RENEWAL OF AIR WITH INTEGRATED ENERGY RECOVERY OFFERS SEVERAL ADVANTAGES

- ✓ OPTIMAL INDOOR AIR QUALITY
- ✓ NUMEROUS HEALTH BENEFITS
- ✓ SIGNIFICANT ENERGY CONSERVATION

INDOOR AIR QUALITY

Currently, Silvasol stands as a leader in the renewable energy and air conditioning sector, thanks to its team and the continuous trust demonstrated by its customers.

¿ WHY CHOOSE SILVASOL?

THOUSANDS OF INSTALLATIONS COMPLETED

Throughout our extensive professional trajectory, we have carried out a wide variety of projects: residential, sports pavilions, industrial warehouses, hotels and commercial premises.

A HIGHLY QUALIFIED TEAM

Our multidisciplinary team, specialized in each type of system, is committed to providing our customers with the highest level of climate comfort at the lowest energy cost.

AT THE CUTTING EDGE OF TECHNOLOGY, WORKING WITH THE TOP BRANDS IN THE INDUSTRY.

Technological innovation has always been one of Silvasol's fundamental pillars. Our commitment is clear: to utilize the most innovative, proven, efficient, and reliable technology.

WE OFFER FULL-RANGE SERVICES FOR ALL TYPES OF INSTALLATIONS, INCLUDING GAS, PLUMBING, AND ELECTRICITY, ENSURING THE QUALITY OF OUR INSTALLATIONS.

We provide comprehensive services, from initial engineering to ongoing after-sales support and maintenance for all our installations. This commitment ensures optimal performance and longevity of our equipment.

CURRENTLY, SILVASOL IS THE BENCHMARK IN THE INDUSTRY

OUR VALUES

COMMITTED TO THE ENVIRONMENT

- ✓ We continually update our fleet, acquiring vehicles with less environmental impact. Currently, a large part of our fleet has electric or hybrid engines.
- ✓ We have a photovoltaic plant that covers 80% of the energy demand for our offices and warehouses. This translates to an estimated annual CO₂ emission savings of over 20 tons.
- ✓ Implementation of a recycling program for all the waste generated at our facilities, construction sites, and warehouses.

At Silvasol, we understand the importance of offsetting our carbon footprint, which is why we maintain a tree plantation, actively contributing to the reduction of CO₂ emissions. You're welcome to visit our plantation with a prior appointment

**CHOOSE COMFORT, QUALITY AND SAVINGS.
